

Data Loss Prevention Endpoint Essentials

Education Services eLearning course

Introduction

Through e-learning and demonstrations, you will learn about using the tools needed to design, implement, configure, and use Data Loss Prevention Endpoint to safeguard intellectual property and ensure compliance.

Course Goals

- Describe Data Loss Prevention (DLP) portfolio, as well as the purpose of portfolio solutions
- Plan Data Loss Prevention Endpoint (DLPe) deployment
- Install and configure DLP solution components
- Install DLP endpoint client software
- Manage user roles and permissions

Recommended Pre-Work

Working knowledge of ePolicy
Orchestrator (ePO)

DATASHEET

- Create and manage policies and rules
- Gather and analyze evidence and events
- Create and interpret reports
- Monitor incidents, events, and system health
- Perform basic troubleshooting

Agenda At A Glance

4 hours

This course has the following modules. Each Module is a combination of instructional material, videos, and links. Please complete each module. Also refer to all the documentation of this product. (Product Guide, Installation Guide, and Release Notes from the Product Documentation Portal) .

- Solution Overview
- Deployment Considerations
- Installation and Configuration
- Deploy DLP Endpoint Client Software
- Configure Users and Permission Sets
- Policy Manager
- Classifications
- Incident and Case Management
- Dashboards and Reporting
- Maintenance and Basic Troubleshooting
