

# File and Removable Media Protection - SaaS Essentials: Introduction

Self-Paced Online Training

## Highlights

### Duration

1 hour

### Prerequisites

Students taking this course should have a working knowledge of Windows and macOS, along with familiarity with system administration and network technologies.

Recommended prerequisites include a basic understanding of computer security, data encryption principles, and command line syntax, as well as knowledge of malware, antimalware, viruses, antivirus, and web technologies. Additionally, prior experience or working knowledge of Trellix ePolicy Orchestrator - SaaS (ePO - SaaS) and Trellix Agent is beneficial.

### How to Register

This course is available for purchase at <https://training-portal.trellix.com/>

## Introduction

The File and Removable Media Protection - SaaS Essentials: Introduction course serves as a comprehensive introduction to FRP - SaaS, covering key features, use cases, product components, and high-level interface orientation.

FRP - SaaS delivers policy-enforced, automatic, and transparent encryption of files and folders stored or shared on removable media such as USB drives.

This course is designed as a practical starting point for someone who is new to supporting FRP - SaaS.

## Learning Objectives

After completing this course, learners should be able to:

- Describe the benefits and key features of FRP - SaaS.
- Describe the product components of FRP - SaaS and how they work.
- Describe the functionality of FRP - SaaS.
- Navigate the FRP - SaaS interface on the ePolicy Orchestrator - SaaS (ePO - SaaS) console.
- Navigate the FRP - SaaS Client interface on endpoints.

## Who Should Attend

The course is designed for system and network administrators, security personnel, auditors, and consultants who are concerned with data encryption on endpoints.

Enhance your expertise by exploring the fundamentals and key aspects of FRP - SaaS, especially if you are new to working with or supporting this solution.

## Course Outline

- 1. Introduction**
- 2. FRP – SaaS Overview**
- 3. Interface Orientation**
- 4. Conclusion**
