File and Removable Media Protection Essentials
Self-Paced Online Training

Highlights

Duration

4-hours

Who Should Attend

This course is designed for internal personnel, Professional Services personnel (Consultants and Trainers), Partners authorized to deliver the training, and customers.

It is specifically designed for system and network administrators, security personnel, auditors, and/or consultants who are concerned with data encryption on endpoints.

Prerequisites

Students taking this course should have a working knowledge of Windows operating systems and system administration, network technologies. Basic understanding of computer security and data encryption, command line syntax, malware/anti-malware, virus/anti-virus, and web technologies is recommended. Prior experience or working knowledge of ePolicy Orchestrator and Trellix Agent is also required.

How to Register

This course is available for purchase at https://trellix-training.netexam.com

The File and Removable Media Protection 5.4.4 Essentials course from Education Services provides attendees with an overview of Trellix File and Removable Media Protection (FRP), its key features, purpose, and benefits. It also provides an overview of installation, upgrade, configuration, and management of FRP along with basic troubleshooting guidance and tips.

Learning Objectives

After completing this course, learners should be able to:

- Describe the FRP solution, purpose, key features, and benefits.
- Describe how to Install and upgrade FRP.
- Configure FRP policies and manage keys.
- Demonstrate functionalities and management of FRP features.
- Describe the basic troubleshooting steps and tips for FRP.
