

# File and Removable Media Protection - SaaS Essentials: Deployment

Self-Paced Online Training

## Highlights

### Duration

1 hour

### Prerequisites

Students taking this course should have a working knowledge of Windows and macOS, along with familiarity with system administration and network technologies.

Recommended prerequisites include a basic understanding of computer security, data encryption principles, and command line syntax, as well as knowledge of malware, antimalware, viruses, antivirus, and web technologies. Additionally, prior experience or working knowledge of Trellix ePolicy Orchestrator – SaaS (ePO - SaaS) and Trellix Agent is beneficial.

### How to Register

This course is available for purchase at <https://training-portal.trellix.com/>

## Introduction

The File and Removable Media Protection - SaaS Essentials: Deployment course provides an in-depth overview of the deployment, installation and upgrade of FRP - SaaS in your environment.

FRP - SaaS delivers policy-enforced, automatic, and transparent encryption of removable media such as USB drives.

This course is designed as a practical starting point for someone who is new to deploying FRP.

## Learning Objectives

After completing this course, learners should be able to:

- Describe the initial setup for FRP - SaaS deployment.
- Deploy the FRP - SaaS Client using Advanced Deployment.
- Deploy the FRP - SaaS Client using Smart Installer.
- Describe the process to upgrade FRP - SaaS Client automatically.
- Describe the process to upgrade FRP - SaaS Client manually.

## Who Should Attend

The course is designed for system and network administrators, security personnel, auditors, and consultants who are concerned with data encryption on endpoints.

## Course Outline

1. Introduction
2. Deployment and Upgrade
3. Conclusion
