

# Helix Essentials Course

## Education Services eLearning Course

### Audience

Network security professionals, incident responders and Trellix administrators and analysts who use Helix to analyze data in noisy event streams.

### Recommended Pre-Work

It is recommended that students have a working knowledge of Microsoft Windows administration, system administration concepts, a basic understanding of computer security concepts, and a general understanding of internet services.

### Learn More

To order, or for further information, please email [SecurityEducation@trellix.com](mailto:SecurityEducation@trellix.com).

The Helix Essentials course from Education Services provides an overview of the Trellix Helix, key features, purpose, and benefits. It also provides a high-level overview of deployment, installation, and configuration of Helix along with basic troubleshooting guidance.

### Course Goals

At the end of this training, you will be able to:

- Search events in Helix
- Leverage built-in functions like grouping and pivoting to query and sort through data
- Collect 3rd party from on-premises and cloud data sources
- Triage alerts and build context to properly assess an alert
- Use dashboards and generate reports from the data in Helix

### Agenda at a Glance

- **Module 1:** Course Introduction
- **Module 2:** Product Overview
- **Module 3:** Search
- **Module 4:** Assets
- **Module 5:** Detection
- **Module 6:** Dashboards and Reports
- **Module 7:** Lists
- **Module 8:** Conclusion
