

Network Data Loss Protection Essentials

Education and Enablement Services
eLearning course

Introduction

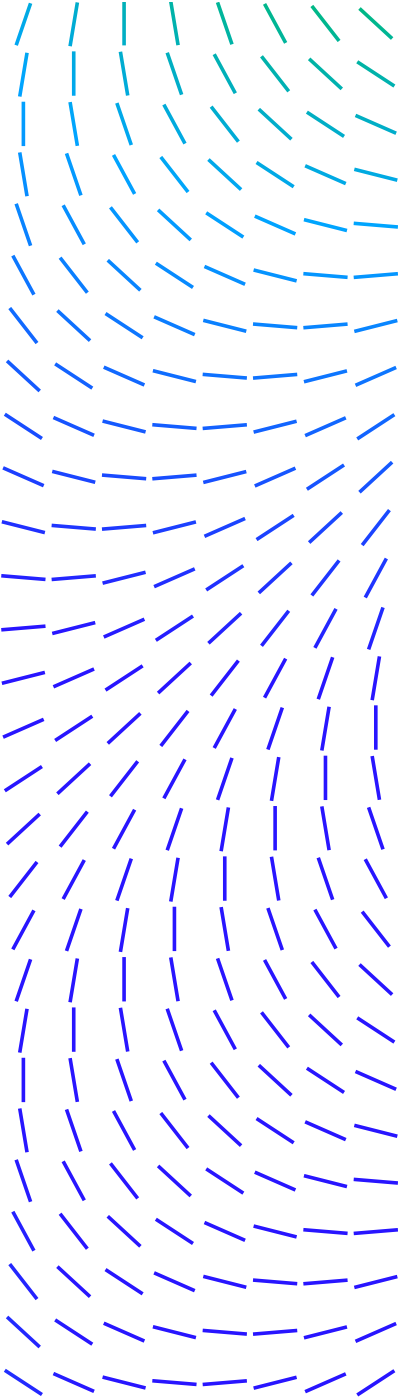

Through eLearning and demonstrations, you will learn about using the tools needed to design, implement, configure, and use Network Data Loss Prevention to safeguard intellectual property and ensure compliance.

Course Goals

- Describe Data Loss Prevention (DLP) portfolio, as well as the purpose of portfolio solutions
- Plan Network Data Loss Prevention (NDLP) deployment
- Install and configure NDLP solution components, including DLP Capture
- Install DLP Prevent, Capture, Monitor, and Discover appliances
- Manage user roles and permissions

Recommended Pre-Work

Working knowledge of ePolicy
Orchestrator (ePO)

DATASHEET

- Create and manage policies and rules
- Gather and analyze evidence and events
- Create and interpret reports
- Monitor incidents, events, and system health
- Perform basic troubleshooting

Agenda At A Glance

8 hours

This course has the following modules. Each Module is a combination of instructional material, videos, and links. Please complete each module. Also refer to all the documentation of this product. (Product Guide, Installation Guide, and Release Notes from the Product Documentation Portal).

- Solution Overview
- Deployment Considerations
- Installation and Configuration
- DLP Appliances Installation
- Configure Users and Permission Sets
- Policy Manager
- Incident and Case Management
- Dashboards and Reporting
- Maintenance and Basic Troubleshooting
- Summary
