semperis

Get the industry's most comprehensive identity system defense.

Layered protection across the entire identity-attack lifecycle, backed by unrivaled expertise.

Active Directory · Entra ID · okta

84% of organizations experienced an identity-related breach in the last year. Prevention alone isn't enough—**resilience is the strategy.**

Purpose-built for securing hybrid identity environments—Active Directory (AD), Entra ID, and Okta—Semperis platform provides the industry's most comprehensive protection pre-, during, and post-attack, supported by a global incident response team.

PRE-ATTACK

- 100s of security indicators, regularly updated by Semperis' identity threat research team
- Continuous security posture assessment and threat monitoring
- Tier 0 AD attack path analysis mapping risky relationships to privileged groups with access to sensitive data

DURING ATTACK

- Directory change tracking and rollback across hybrid environments in a single console
- ML-based, multi-dimensional threat detection, catching hybrid AD attacks traditional SOC tools miss
- Auto-remediation of malicious changes in AD and Entra ID

POST-ATTACK

- Fully automated, clean, and malware-free AD forest recovery, dramatically reducing downtime
- Post-breach forensic analysis to eliminate backdoors and trust the environment again
- 24/7 incident response support from Semperis' identity security experts

FORRESTER®

The Total Economic Impact (TEI) of Semperis

$9.5M three-year benefits (PV)

- ✓ 90% faster AD disaster recovery
- ✓ 25% reduction in average likelihood of a successful hybrid AD-related ransomware attack
- ✓ 90% faster object and group-level recovery
- ✓ 40% reduction in time spent monitoring the hybrid AD environment

> In the event of a ransomware attack, Semperis ensures we can easily recover our AD in hours versus weeks or months. ... To know that we have a viable alternative when the worst of the worst happens allows us to sleep better at night."

CISO, Healthcare

Forrester TEI of Semperis Report 2024

Integrity and availability. Always.

AD is the #1 new target for ransomware, exploited in nine out of ten cyberattacks. Attackers take advantage of risky AD configurations to identify attack paths, access privileged credentials, and deploy ransomware into target networks. Only Semperis protects AD and other identity systems pre-, during, and post-attack for unrivaled identity-driven cyber resilience.

Directory Services Protector

The industry's most comprehensive AD and Entra ID threat prevention, detection, and response platform

Active Directory Forest Recovery

Cyber-first disaster recovery for AD

Lightning Identity Runtime Protection

ML-based attack detection with specialized identity risk focus

Disaster Recovery for Entra Tenant

Fast, secure backup and recovery for Entra ID resources

Migrator for Active Directory

Security-first AD migration and consolidation

Delegation Manager

Automated AD delegation to selected groups to reduce excessive privileges

COMMUNITY TOOL

Purple Knight

Cybersecurity assessment tool for AD, Entra ID, and Okta environments, built by Semperis threat research team

COMMUNITY TOOL

Forest Druid

First-of-its-kind Tier 0 attack path discovery tool for AD and Entra ID environments

Supported by the world's foremost identity experts.

No vendor or services provider can outmatch Semperis' collective Microsoft MVP experience in identity security. Semperis' Breach Preparedness and Response (BP&R) team is made up of Microsoft MVPs and former Microsoft Premier Field Engineers (PFEs) with unrivaled track records of protecting the most sensitive hybrid identity environments in the world and deep expertise in on-prem AD, Entra ID, Okta, and other enterprise identity systems.

150+
combined years of Microsoft MVP experience

30+
years' data analysis for insider threat & risk monitoring

25+
former Microsoft Premier Field Engineer (PFEs) on staff

About Semperis

For security teams charged with defending hybrid and multi-cloud environments, Semperis ensures the integrity and availability of critical enterprise directory services at every step in the cyber kill chain and cuts recovery time by 90%. Purpose-built for securing hybrid identity environments—including Active Directory, Entra ID, and Okta—Semperis' patented technology protects over 100 million identities from cyberattacks, data breaches, and operational errors.
